Lundberg, of 233 West One ndred and Thirty-fifth street, lies a story which in its sensational features rivals the famous Freda Ward case. There is only this difference—that while Freda Ward shot and killed the ptrl with whom she was infatuated, and from whom she was separated, Lizzie Lundborg is in Bellevue Hospital for ination as to her sanity.

Dr. Lucius C. Adamson, who succeeded the late Dr. Douglas as insanity expert to-day put her through a fire of quer He will have another examina n late this afternoon, and the girl's ather and mother, who had her ar-ested, will be present. If the letters fall in this set least demonstrate one thing—that Lis-sie Lundborg is hopelessly infatuated with another woman, named Kate New-ell, who had been a servent in her father's house.

So infatuated is she that she declares she cannot live without her; that they have given themselves to each other and that death would be preferable to a separation.

The most remarkable thing about this Insane love of one woman for another Heans to Follow Up Indicted Stand-is the fact that while Lizzie might be and Oll Men. almost considered beautiful, Kate New-

almost considered beautiful, Rate over all is the reverse. Lizzie is an excellent musician. She can speak the English, French, German and Swedish languages fluently. Kate Newell can only speak English and is not considered remarkably proficient even in that.

Lizzie is about the average heighth for a girl of her years; well developed, a bright, intelligent face and a wealth of hair.

Kate Newell is pearly six feet tall, with massive shoulders, narrow hips and far chest. Her jet black hair is cut close, and she looks and acts more like a man than a woman. Besides this her face is deeply marked with small-pox.

Kate Newell is pearly six feet tall, with massive shoulders, narrow hips and flat chest. Her jet black hair is cut close, and she looks and acts more like a man than a woman. Besides this her face is deeply marked with small-pox.

Twice did Lizzie fly from her father's home, which is almost luxuriously fitted up, on each occasion going to live with the woman she loved, and who also swears that she reciprocates the affection. On both occasions she was dragged away by the police, the last time being yesterday, when she was arraigned in the Harlem Police Court and committed for examination as to her sanky.

When Lizzie was only four years old he had a fall, and as a result she was afflicted with hip disease. Her father, who is a ship designer and engineer, took the child everywhere and tried all the well-known physicians of Europe in hopes of having her cured. When she reached her tweifth year she became ill with scariet fever and occasionally after that complained of headaches. This, and her infatuation for the other woman is the only cause her parents can assign for the theory of insanity.

About two years ago she was completely cured of the hip disease, but she has since walked with a kind of halt, as if iame. Her spirits have always been of the best, and until a few months ago she thought the equal of her parents did not exist. Now she almost bates them, and calls them tyrannical because they have taken her from Kate. It was in May last that the young girl arst met the other woman, Mrs. Lundborg was 'n need of a cook, and seeing an adertisement in one of the evening papers he answered it. It directed her to call it. If we may have taken her from Kate. It was in May last that the young girl arst met the other woman mad about hirty-two years old.

Gov. Abbett was a strong partisan, and while Governor did all he could to turn out every Republican who held an office.

He had great faith in the Democratic strength of the State, and never, it is said, made an effort to win Republican votes. He was quoted as having said that he didn't want them, even as "personal favors."

Gov. Abbatt came in for much criticism during his occupancy of the Gubernatorial chair, but was never known to waver when he had once expressed an opinion or made a decision in line with his convictions.

His commendable action in vetoing "Reading Trust Coal Bill" was considered by some to have been unwise and made him enemies, but raised him in the estimation of all thinking people.

At the time of his death Mr. Abbott was Judge of the Supreme Court.

"Well, I did think of replying at first, and then I reflected that I could not answer him truthfully without putting him in an unenviable light before the public, and I decided to spare him that embarrassment.

"I recalled also that in the affidavit of election expenses which Judge Ingraham filed in the office of the County Clerk of New York in November, 1881, he swore he paid to Richard Croker, Chairman of the Finance Committees of Tammany Hall, the large sum of \$5,500, to be expended, as he swore, for the expenses of public meetings, amount of the expenses of public meetings, amount of the public of the expense of the expense of public meetings, amount of the expense of the expense of public meetings, amount of the expense of the expen

He moved to Jersey City, and was again sent to the Assembly He was Speaker of that body in 1883 and 1870.

In 1874 he was elected State Senator by a large majority. It was there that he developed most strangely his characteristics as a leader.

His career in the Senate attracted much attention and he was tendered the Gubernatorial nomination in 1883, and was elected over Dixon by a plurality of 5,899.

He served one term and was re-elected in 1889.

Gov. Abbett was a strong partisan, and while Governor did all he could to deprive Judge to preside.

"Recalling these facts, I could not see how, if District-Attorney Fellows was alway the politic from trying cases of offending office-holders, because of his political affinitions with Tammany Hall, budge Ingraham was not doubly disqualified from presiding over the trial of such cases, for Col. "I want to say," the Governor continued, "that I do not share Justice Ingraham's implied opinion that prosecutions of public offenders must be committed to men of opposite political convictions for to men of no political convictions in order to secure justice. If Democratic prosecuting officers can't or won't prosecute Democratic thieves and majefactors, then I want to see other Democratis in their places who can and will. If the Democratic party won't stand for punishing its own criminals, then I want to move out of it.

"So far as my official power goes I say now, as I have said before, that I want to see every corrupt and unfaithful public officer punished, whether he is a Democrat, a Republican or a Prohibitionist. But such punishment must be meted out decently and in order."

Every application was carefully inquired into, and a rule had been made that year which made it impossible for any one to obtain a license of one Commissioner objected.

Since the testimony of Tomlinson, Mr. Andrews said he had refreshed his memory on the subject, and told the story of the Tortoni license as far as he could remember it.

He said that it was a peculiar case, and for that reason recalled it. A great many places had been closed that year on account of a rule of the Board that no license should be granted to a place which was of an immoral character.
